Cloze Passage 1

Name _____ Date _____

Based on *Reading Horizons Discovery® Little Book "The Hyrax"*

This animal has a funny name. It is called a hyrax. It is a land mammal. The hyrax has stumpy toes and long toenails. It also has stubby legs. It lives with up to fifty other hyraxes. A yummy lunch for a hyrax might include cabbage and lettuce. They can be pests to some people because the hyraxes eat their plants. This makes people crabby!

Name _____

Every syllable has a working vowel. Some words have more than one syllable. There are two skills used to separate words into syllables. This is Decoding Skill 2.

Lesson 66: Decoding Skill 2

1. Mark under the word.

campus
x x

2. Go back to the first vowel.

campus
x x

3. Look at the first vowel, *a*. How many guardian consonants follow *a*? Two. Two guardian consonants will SPLIT! *M* will stay in the first syllable; *p* will move on to the next. Box the first syllable.

campus
x x

4. Will *a* be long or short? It still has a guardian, so mark it short. It's not necessary to star guardians now; just think them!

campus
x x

5. Is the vowel *u* long or short? Short, because it has a guardian. Mark the *u* short.

campus
x x

6. Box in the last syllable.

campus
x x

Prove and read the following words. The first word has been done for you.

sūb|mit
x x

năp|kin
x x

cōnt|act
x x

cāndy
x x

cōnt|est

Name _____

When two of the same consonants are together in a word, only one consonant sound is heard. When the consonant c is doubled in a word, sometimes there are two consonant sounds.

Lesson 68: Double Consonants

When a consonant is doubled, you hear only one consonant sound. Apply Decoding Skill 2 to split the double consonants. Then draw a line through the first of the double consonants to make it silent.

Examples: bō|n|nēt fū|n|nyē

Prove and read the following words:

flū|ff|yē

ā|pp|pē|al

cō|ff|fēē

ō|ff|fice

ī|m|mē|nse

cā|bb|bāge

Sometimes the consonant c is doubled in a word. If the second consonant c is followed by the vowels a, o, or u, there is only one /k/ sound. The first c is silent. If the second c is followed by i or e, the first c says /k/, and the second c says /s/.

Examples: ā|cc|cuse ā|cc|cess

Prove and read the following words:

ā|cc|cept

ā|cc|crue

ā|cc|claim

ā|cc|cede

ā|cc|cent
